

Assistance to postpartum women

Vision

By: Sapir Peled

Project goals: To provide a set of tools to help manage and monitor baby development.

Target market: mothers in the first year after birth.

Main features:

- Eating tracking (breastfeeding and bottle) with an option to set reminders.
- Diaper replacement tracking.
- Well- baby tracking (appointments and visit details).
- Information on the stages of baby development and display it automatically according to the baby's age.
